

MEDICINE

Wycliffe Hall

Overview

DURATION: 2 Weeks

LESSONS: 2 x 90 minutes per day; 5 days a week

LEVEL REQUIRED: Intermediate or above

TIME TO SHINE: First Aid Course and Medicine presentation

SUITABLE FOR FUTURE STUDY: All Medicine disciplines (e.g. Pathology, Dentistry, Surgery, etc.)

During this comprehensive and interactive course, students will develop their knowledge and understanding of the world of medicine, through the study of theory and practical skills involved in being a doctor. Our Medicine students will run through hypothetical and practical situations to learn how to respond to patient symptoms and form critical response to key medical issues in today's world. As well as receiving a certificate and report at the end of their stay, our Medicine students will also leave Oxford College with a recognised First Aid qualification.

Course Objectives

- To gain a broad understanding of medical pathologies, procedures and practices
- To critically analyse and discuss a variety of contemporary medical issues
- To develop key soft skills essential for successful patient care
- To conduct research to identify symptoms, analyse findings and diagnose patients
- To gain vital practical medical skills during certified First Aid training
- To improve all-round confidence in using English communicatively
